- A simple and clean website with an illustration for travel company.

Assisting in mockup creating. ↗
- I was assisting with creating a mockup for a sound-producing company. The client had a lot of requests and requirements. We've tried to mix clean and simple design with some 3d elements. In this work, I was working on the UI part and was responsible for communication with the client.

Landing page for a beauty bar. One of my first works :) ↗
- A one-page website with information about services. Was made for Squarespace CMS that has some limitations.
